closets

organize your life

Lifespan Closets are designed to meet your family's unique and ever-changing needs. We have the storage solutions that you require—whether you're reclaiming space in an existing home or building new. Our system is created to allow you the versatility to change your spaces wherever and whenever you need.

lifespanclosets.com

Lifespan Closets is a Midwestern company that produces a superior quality, versatile and affordable closet and shelving system. The high-strength and simplicity make it stand out amongst the competition. In either a residential or commercial setting it will redefine your space and add value.

PARTS

There are many options when it comes to creating your own Lifespan Closet. Whether you choose the popular white melamine or an impressive wood veneer, you will not be disappointed with the versatility of your Lifespan system. Everything from shelving and closet rods to accessories, utilize the pre-drilled holes on our vertical partitions, which allow the system to adapt to your needs.

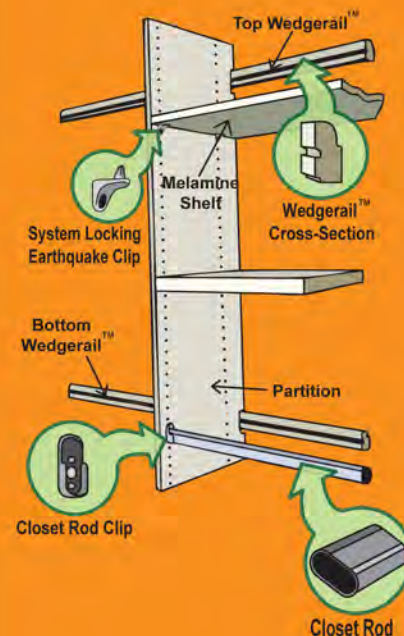

CLOSET SYSTEM INSTALLATION

Lifespan Closets are more cost effective than adjustable wire shelving. Not only is this system easier to install, it offers better and more versatility with no damage to your walls, unlike fixed wire shelving.

Virtually everyone can install our product and get professional results with Lifespan Closets' patent pending system. First, you install the Wedgerail™, which can be easily cut with a power saw. Then, you simply hang the components.

1. Mount the top Wedgerail™
2. Mount the bottom Wedgerail™
3. Hang the partitions
4. Add shelving with clips
5. Add closet rods with closet rod connectors

After installation, you are able to adjust the shelving to fit your lifestyle without tools or hassles.

Wedgerail™ cross-section

Closet rod clip and Earthquake clip

Let us design it!

To further customize your Lifespan Closet system, consider these additional shelving components and accessories:

- Chrome wire baskets
- Drawers
- Doors
- Fold-away mirrors
- Jewelry drawers
- Prong locker hooks
- Shoe rack
- Pant rack

Organize your life

- Lifespan Closets are high-impact, low-cost, simple remodeling projects
- They hang on the wall above the floor, making it easier to clean
- Shelving and partitions can be repositioned at any time
- Same system, endless possibilities. Versatility makes decisions and changes easy.

“I can’t believe how well the closet system created a new, organized office in our home—everything fits. It’s like a new room.”

“We were surprised by the affordability and versatility. We did our first closet and then we did the rest. You can’t do just one.”
